THE OPPORTUNITY

3855 Wayburne Drive is a purpose built, modern flex industrial building in the heart of the Trans Canada/Canada Way Corridor. With consideration given to meet the shortcoming of current flex industrial projects, such as oversized loading, power, oversized freight elevators, high ceilings, patios and generous glazing in the office areas, the building is highly adaptable and suitable for users requiring lab, clean rooms, clean manufacturing and production, all while supporting the need for attractive office and signature corporate appeal.

The building is centrally located between four major thoroughfares: Trans Canada Highway (5-min drive), Lougheed Highway 7 (10-min drive), British Columbia Highway 1A (10-min drive), and Boundary Road (5-min drive), all offering convenient accessibility throughout the Lower Mainland.
