# Heritage building with modern amenities

Avison Young is proud to present the rare opportunity to lease 123 Main Street – located just minutes from restaurants (The Keg, Earls), Canada Life Centre (formally BellMTS Centre), Portage & Main, The Forks Market and many amenities you and your employees would require.

Originally built in 1908, Union Station operated as an important transportation hub in the region. CNR turned over passenger rail services to VIA Rail in 1978 which has operated out of Union Station ever since. Union Station as it stands today is a 248,000 sf heritage mixed use building owned by VIA Rail and ideally situated at the outskirts of four distinct neighbourhoods: Broadway Corridor, The Forks, Downtown and The Exchange District.

Constructed in 1908, this building has a lot of history and character. The beautiful architecture stands true as Union Station was designated a **National Site of Canada**.

## RAILSIDE AT THE FORKS

After several years of experiencing delays, Railside at The Forks has broken ground for Phase I. Preparations are under way to install underground utilities and a geothermal system and is expected to reduce 12,200 tonnes of greenhouse gas emissions annually. Phase I is expected to open to the public in early 2026.

Once complete, Railside will consist of 30 mid-rise developments hosting commercial, retail and services at the ground level of each building, the project is expected to add 1,200 rental and condo units.

The Forks receives approximately four million visits annually. An annual economics review conducted by InterGroup Consultants determined the economic impact of the whole of the Forks site to be \$165 million.
