# The Winnipeg Skywalk

The Winnipeg Walkway system, also known as the Winnipeg Skywalk, is a system of elevated and underground pedestrian walkways that connect the majority of downtown Winnipeg. Composed of 14 skywalks and 7 tunnels, the Winnipeg Walkway connects a total of 38 buildings throughout downtown Winnipeg allowing for roughly two kilometers of protected walking space. The system provides year-round climate-controlled access to over 170,000 sq. m. of space, 10 office towers, and more than 200 shops and businesses. Outdoor entrances to the Winnipeg Walkway can be found at various points along the walkways route.

This system allows pedestrians coming from 200 Graham to access most key elements of Downtown including Portage & Main, Canada Life Centre, and True North Square without ever having to go outside.

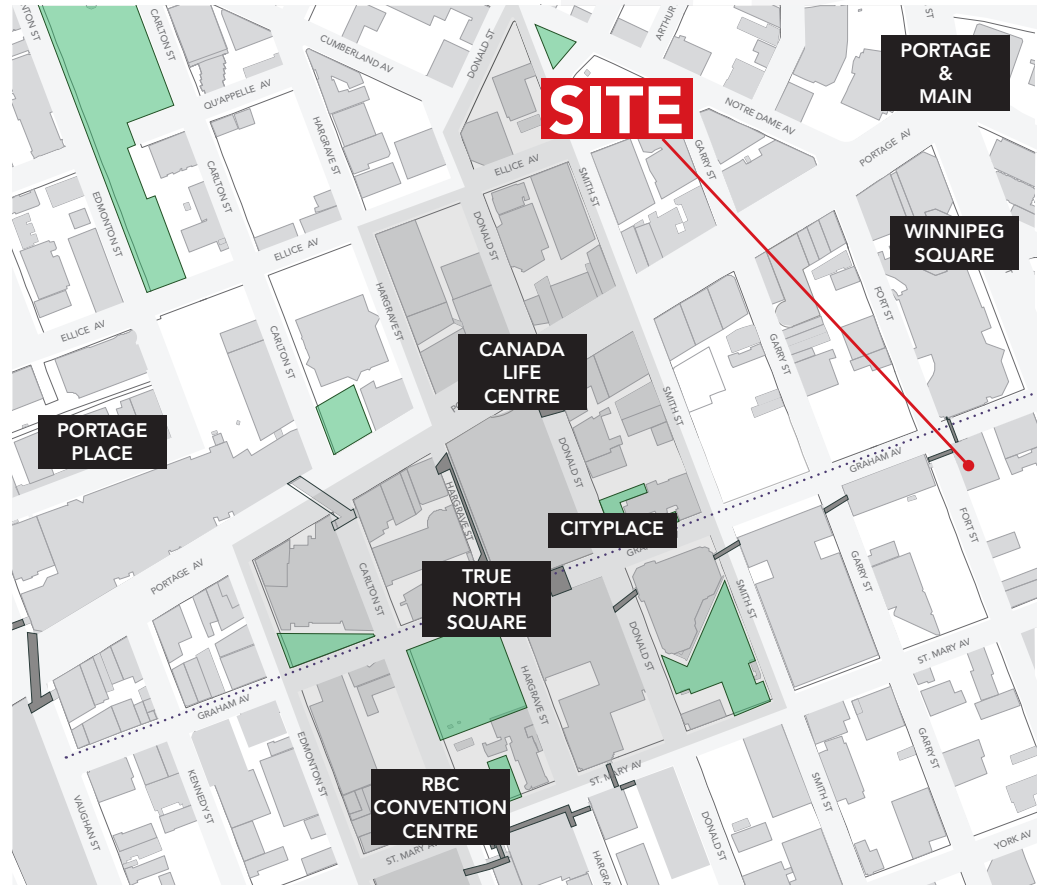

# Accessibility & Transportation

200 Graham's location offers high accessibility to all areas of the city via public transit and the Graham Avenue Transit Mall as well as its accessibility to other major thoroughfares.

The Graham Avenue Transit Mall is a 9-block transit mall located in downtown Winnipeg that is mostly reserved for Winnipeg Transit buses, cyclists, and pedestrians. The Graham Mall was completed in 1995 and connects many major downtown businesses and amenities including The Properties, Canada Life Centre, True North Square, Winnipeg Square, Manitoba Hydro, Cityplace, Winnipeg Police Headquarters and the Royal Winnipeg Ballet. The transit mall is serviced by 19 bus routes and features highway-grade concrete roads and cobblestone break at all intersections. About 1,700 buses operate on the Graham Mall each weekday. Since completion of the project, passengers have benefited from dramatic improvements in schedule reliability, faster bus running times as the higher transit speeds.

The Properties are easily accessible to other major north-south thoroughfares, via route 62 and 42 including Osborne, Memorial and Donald Streets, major arterial routes connecting Winnipeg's south end to the north end of the City. In addition, the Properties benefit from their proximity to Portage Avenue (Winnipeg's route 85). Portage Avenue is a major arterial route in the City of Winnipeg and is one of the city's oldest and most important roads. This artery connects the city to both the Trans-Canada and Yellowhead Highways.
