SUSTAINABILITY

As an industry leader with an in-house Sustainability and Innovation Team working in collaboration with internal and external stakeholders, and with an unparalleled breadth of project experience and depth of technical knowledge, Triovest is in a unique position to positively impact the industry.

The following energy conservation measures were implemented in the last four years to improve efficiency:

- Continued systems commissioning and retro-commissioning
- Two co-generation plants installed in building
- Building automation system upgrades/replacements
- Smart grid/smart building systems
- Lighting upgrades
- HVAC system upgrades/replacements/conversions from constant to VAV
- Piloting of waterless urinals and high-efficiency/dry fixtures
- Implementation of sphagnum moss water treatment in place of chemicals
- Recycling program increased diversion streams
- Composting landscape and food waste
- BOMA BEST Gold
- LEED Platinum v4.1 O&M

Paper towel composting in all washrooms will be implemented.
