Southern Alberta Eye Center

We are pleased to present a unique opportunity to lease space in one of Calgary's most prestigious medical buildings, the Southern Alberta Eye Centre (SAEC).

Established in 2010, SAEC has become a center of excellence in ophthalmic care, featuring advanced diagnostic and surgical technologies that set it apart from typical medical facilities. Purpose-built as a hub for ophthalmology, it is recognized as one of Canada's leading facilities in the field.

A standout leasing opportunity is a 9,286 square foot surgical unit on the third floor, "SAEC Surgical," with four specialized operating rooms designed for a range of surgical procedures. Just 4 kilometers from Rockyview General Hospital, this space offers an ideal, accessible location for medical professionals seeking state-of-the-art facilities.

Physicians at SAEC benefit from cutting-edge technologies often unavailable in independent practices or public hospitals, supporting exceptional patient care and fostering a collaborative environment.

We invite new medical tenants to join this esteemed community, whether expanding ophthalmic services or introducing complementary practices aligned with SAEC's high standards.

Southern Alberta Eye Center

Year Built	2010
Number of Floors	3
Building Size	48,874 SF
Floor Plate	16,291 SF
