Location Overview

WHERE CITY MEETS WATERFRONT

34-Acres Connecting Two Cities

Shopping & Dining

Zibi is more than just a destination; it's a vibrant community where residents enjoy a wealth of amenities, from dining and shopping to world-class greenspaces, steps from their doorstep. For those working in the area, convenience is key with easy access to errands and fantastic lunch and dinner choices. Visitors will find a picturesque waterfront location to explore, offering an array of dining, leisure, and relaxation options all in one captivating place.

Interzip Rogers

Adventurous residents can fly across the Ottawa River on the only interprovincial zipline in the world. With views of Parliament Hill it is a unique way to experience the community.

Parks & Plazas

Zibi values the wellness of its residents, providing nearly 8 acres of thoughtfully designed parks and plazas to cater to serene moments of contemplation as well as lively community gatherings. Pangishimo Park offers panoramic views of Chaudière Falls, the Ottawa River and connects the community to the NCC's many bike paths. Opening in 2023, Terasini park will be the first park located in Gatineau, with views of Parliament Hill it will offer a welcoming gathering place to unwind.

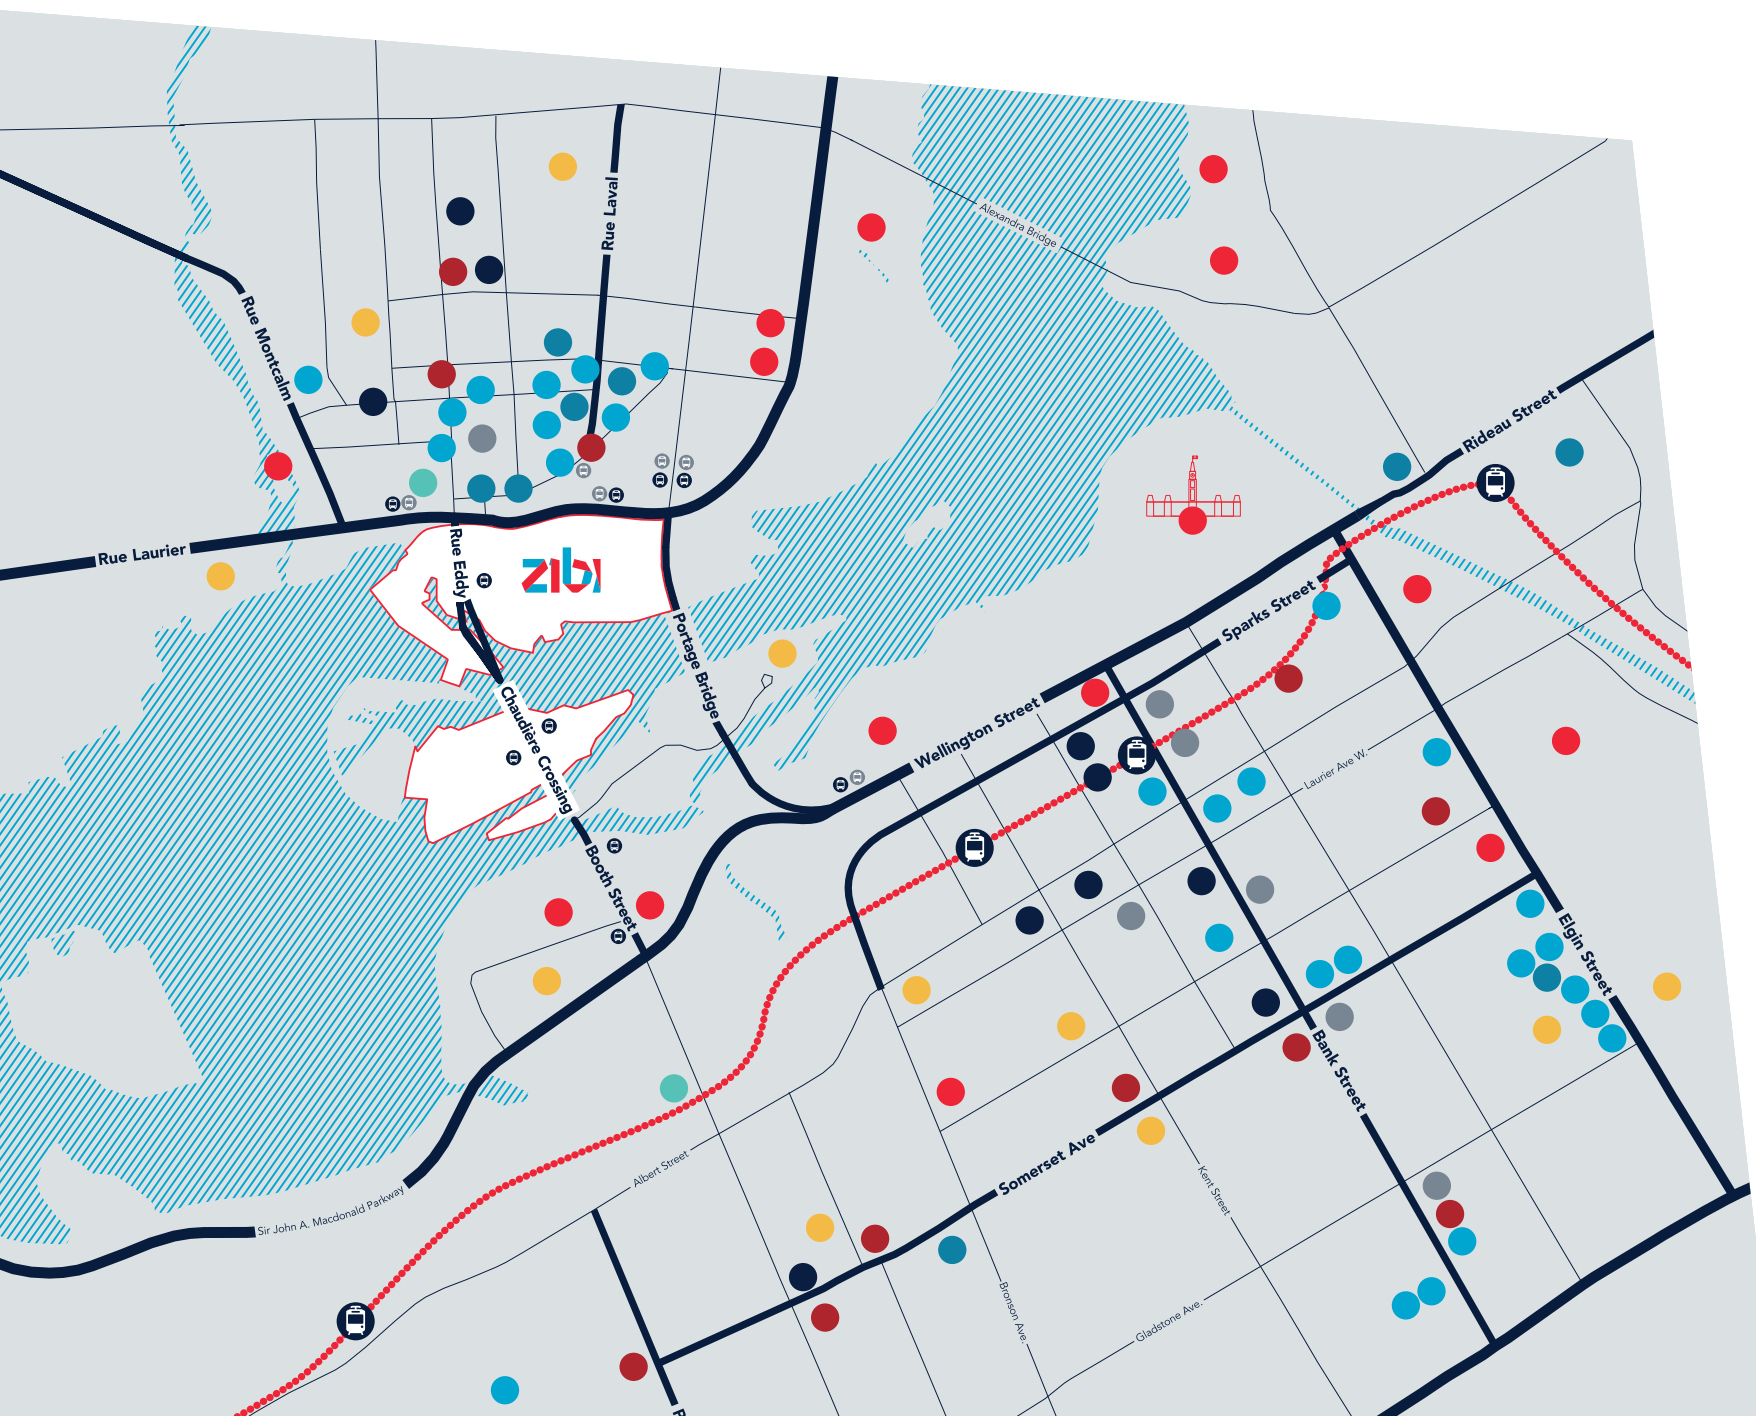

Zibi House

A cutting-edge landmark, featuring an all-glass observation deck, event venue, and immersive cultural experience in North Shore. Designed by renowned Canadian designer Paolo Ferrari, this bespoke shipping container installation offers unmatched views of the Waterfront City, becoming the vibrant heart of the community and a must-visit destination.

Location Overview Amenities

REINTRODUCING THE REGION TO THE RIVER

Neighbourhood Amenities

Zibi's location is unparalleled. No other community boasts 34 acres of waterfront in the downtown cores of both Ottawa and Gatineau. Framed by Portage Bridge and Waterfront Quarter to the East and Chaudière Crossing and Albert Island to the West, this master-planned community will provide unprecedented connectivity to both cities and offer stunning views of the falls and Parliament Hill.

Location Overview

Demographics

A FUSION OF LOCATION, COMMUNITY AND DIVERSITY

Redefining Waterfront Living

ZIBI boasts a diverse and vibrant demographic within its 10km radius, making it an ideal location for a company to establish its office. The area is characterized by a mix of residential and commercial spaces, attracting a wide range of individuals and businesses.

The surrounding area is home to a well-educated population due to its proximity to several universities and colleges. This educated workforce can contribute significantly to the company's growth and innovation, as they bring diverse skills and knowledge to the table.

The age distribution is favourable for a company looking to build a dynamic and talented team. With a blend of young professionals and established individuals, there is a rich pool of potential employees with varying levels of experience and fresh perspectives.

Moreover, the area's cultural diversity is another advantage. A wide range of backgrounds and experiences lead to a more inclusive and creative work environment, fostering collaboration and a broader understanding of global markets.

The location's accessibility is a crucial factor as well. Good transportation links and proximity to the city center make it convenient for employees, clients, and partners to reach the office easily.

Additionally, the surrounding amenities, such as restaurants, cafes, parks, and recreational facilities, provide a positive work-life balance for employees, contributing to increased productivity and job satisfaction.

ZIBI offer a winning combination of education, age diversity, cultural richness, and accessibility, making it highly beneficial for a company to choose this location for its office. The area's dynamic and talented workforce, coupled with a welcoming community, creates a stimulating and nurturing environment that can drive the company's success and growth.

The Dream Impact

THE IMPACT

A leader in building better communities

Dream has a proven track record of building better communities and has generated strong financial returns by creating unique, inclusive assets which have lasting positive impacts on the lives of the residents, customers and stakeholders. Impact investing encompasses more than the investment alone. By managing investments for impact, Dream provides enhanced access to a broad range of investment opportunities that achieve stronger market returns with positive, measurable social and environmental outcomes. The impact investing verticals were designed with the universally recognized and accepted United Nations Sustainable Development Goals (UN SDGs) in mind.

No Poverty

200 affordable units under construction

Zero Hunger

90% of interested households will receive gardening space

Good Health & Well-being

22% of Zibi includes parks, public spaces and views of Ottawa River

Gender Equality

Zibi benefits from the guidance of the Memengweshii Advisory Council, a circle of women who are active participants in community planning

Clean Water & Sanitation

42% less potable water used than average Canadians

Affordable & Clean Energy

100% Net Zero Carbon for all buildings using the District Energy System

Decent Work & Economic Growth

6,000 new jobs with 50% of retail committed to local business

Industry, Innovation & Infrastructure

All buildings at Zibi will deliver clean heating and cooling energy generated at the ZCU central plant

Reduced Inequality

200 affordable units under construction and engages Indigenous for partnerships, training programs and as subcontractors

Sustainable Cities & Communities

#1 most sustainable and only One Planet Living endorsed Global Leader in Canada

Responsible Consumption & Production

50% of existing on site buildings will be repurposed with 90% of all demolition materials and remediate all contaminated soil

Climate Action

Zibi will be built to the 1 in 1000 year floodplain level

**The Dream Impact
Sustainability**

TWO PROVINCES. ONE PLANET

Welcome to the most sustainable community in Canada

Zibi adheres to all 10 principles of the world-class One Planet Living framework from eliminating GHG emitting energy sources to encouraging social equity. Together we are reaching our goal of building the most sustainable and only One Planet Living endorsed community in Canada.

Zibi has developed the region's first zero-carbon District Energy System (ZCU) relying on post-industrial waste energy for heating, and the Ottawa River for cooling.

The One Planet Living framework was developed by Bioregional and the World Wildlife Fund. ZCU is integral to helping Zibi attain its One Planet Living goals by ensuring its energy needs are satisfied on a net-zero carbon basis. While many district thermal systems exist in Canada, Zibi will be the first in North America to use post-industrial effluent energy recovery in a master-planned community.

Health & Happiness

Encouraging active, social, meaningful lives to promote good health and wellbeing

Equity & Local Economy

Creating safe, equitable places to live and work which support local prosperity and international fair trade

Culture & Community

Nurturing local identity and heritage, empowering communities and promoting a culture of sustainable living

Zero Carbon Energy

Making buildings and manufacturing energy efficient and supplying all energy with renewables

Sustainable Water

Using water efficiently, protecting local water resources and reducing flooding and drought

Land & Nature

Protecting and restoring land for the benefit of people and wildlife

Travel & Transport

Reducing the need to travel, encouraging walking, cycling and how carbon transport

Local & Sustainable Food

Promoting sustainable humane farming and healthy diets high in local, seasonal organic food and vegetable protein

Zero Waste

Reducing consumption, re-using and recycling to achieve zero waste and zero pollution

Material & Products

Using materials from sustainable sources and promoting products which help people reduce consumption

The Dream Impact Sustainability

CANADA'S LARGEST CARBON-NEUTRAL COMMUNITY

Be part of the Region's
First Zero-Carbon
Emission Community

Reduced overall costs

Reduced overall costs compared to carbon energy including those associated with ongoing operation and infrastructure maintenance. Since the ZCU does not use fossil energy, operating costs will not be affected by Federal carbon-tax increases.

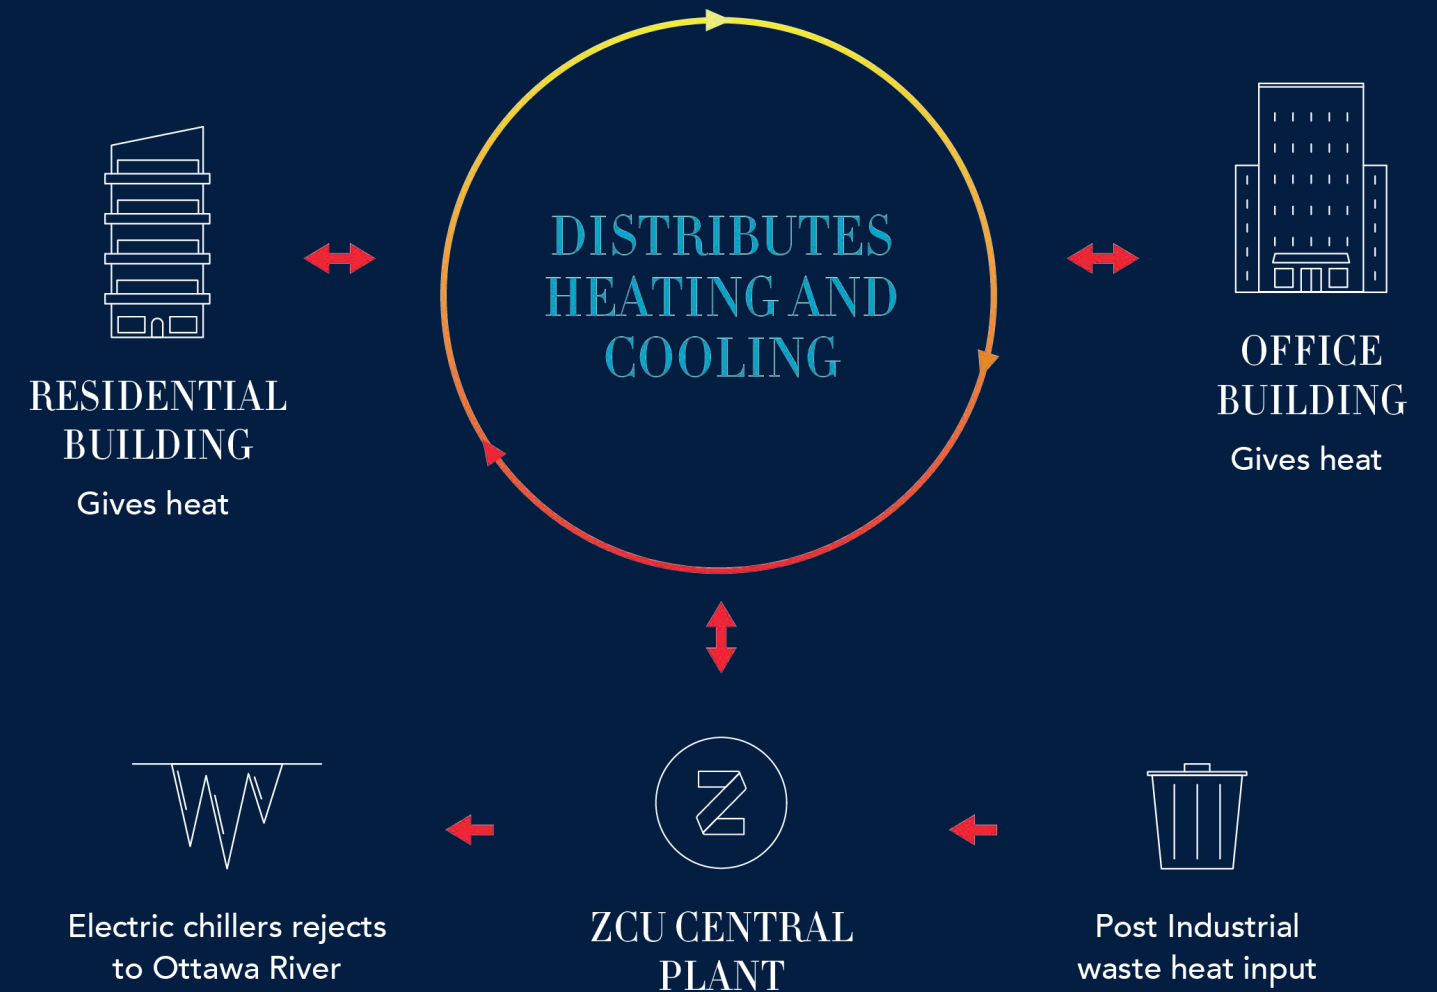

A smaller carbon footprint

In Ottawa, almost 50% of greenhouse gas emissions come from heating, cooling, lighting and operating commercial buildings. Zibi buildings operate on a net-zero basis for heating and cooling using Quebec electricity which is 10x cleaner and near zero-carbon.

Encouraging the use of local resources

Cool water sourced from the Ottawa River is used for cooling, and hot water is sourced and reused from the neighbouring Kruger Products plant (post-industrial effluent heat).
